

# The Rosetta Stone

- 11 Whilst digging to expand their fort in 1799, a group of  
20 French soldiers made one of the most important historical  
30 discoveries of all time – the Rosetta Stone. Named after the  
40 town it was discovered in, the Rosetta Stone was created  
52 over two thousand years ago and on it was the clue to  
57 finally decoding ancient Egyptian hieroglyphics.
- 66 Hieroglyphics was a complicated way of writing in ancient  
74 Egyptian times which used thousands of symbols. Some  
83 of the symbols represented sounds, like our letters, whilst  
92 others stood for whole words. Written on the Rosetta  
104 Stone was one passage of text but it was in three different  
111 languages: hieroglyphics, demotic (old Egyptian) and Greek.  
121 It finally unlocked the secret of how to read hieroglyphics  
131 because scholars knew what was being said in a language  
135 we still speak today.

## Quick Questions

1. Which word from the text means to 'make bigger'?

---

---

2. Why is it called the Rosetta Stone?

---

---

3. How do you think scholars felt when the Rosetta Stone was discovered? Give a reason for your answer.

---

---

4. How do hieroglyphics compare to the alphabet we use today?

---

---
