Outside - Strike & Field Activities

Links to cricket & Stoolball

French

The children will look at the basic words for food and drink.

They will plan menus before taking part in a French café activity.

Design and Technology

The children will take part in a mini DT competition to build the strongest Greek temple.

The children will then design and make a tapestry that tells the story of a Greek Myth.

Computing:

The children will review the basics of PowerPoint and decide when they are fit for audience. They will then move on to look at some of the advanced features such as hyperlinks, contents pages and quizzes. Linking to their history work, the children will then design and make a PowerPoint to show an aspect of Ancient Greek life. They will transfer the same knowledge onto a Publisher document and review the advantages and disadvantages of both.

Religious Education:

The children will start by learning what is meant by the term 'peace' before moving on to understanding how Muslims find 'peace' in Islam. They will think about how important it is for Muslims to feel 'peace' in their religion. The children will then investigate their own feelings about 'peace' and discover that there are different ideas about being at 'peace'.

P.D.L:

To be confirmed.

Art:

The children will carry out an in depth study on the artist Vincent Van Gogh. They will explore his use of colour and paint to express his view on the world, focussing in particular on his painting, Starry Night.

In addition, links will be made within the Architecture unit of art looking at styles of Greek columns and how the Ancient Greeks expressed their art through their buildings, something for which they remain famous for even in modern times.

Geography:
