

Easter Art using your finger prints!

Here is an idea for a fun Easter Art activity, which we would have tried at school (for Values Time) before we broke up for the Easter Holidays if we had been there!

All you need is some paper, or card, some paint and of course, your fingers! You could use this idea to make a fun picture for yourself, or for a lovely Easter card to give to someone in your family.

Top Tip: Finger printing can be messy, so before you begin, make sure you've cleared your art space of anything which could get ruined and check with an adult whether you need to put down some old newspaper, or a table cloth to work on.

Oh and have a cloth ready near-by to wipe your fingers on too!
