

Year 5 Volcanoes Research Task

As part of our up-coming English lessons, we will be writing a report about volcanoes! So that you are prepared for this, we would like you to choose a **famous volcanic eruption** to find out about. You need to research **at least 10 facts** and make **detailed** notes about the eruption, although you don't have to write in full sentences!

Some interesting volcanoes which you could research are the eruptions of...

Mount St Helens

Mount Vesuvius

Krakatoa

...although you can choose a volcano of your own choice if you prefer.

Your research **MUST include** the following key facts:

- **Geographical location**
- **Date of eruption**
- **Facts about the eruption**
- **The consequences of the eruption**
- **Technical vocabulary**

You can research using **books, magazines or the internet** to gather your **notes**. If you have trouble finding something to use for your research, just ask your teacher if you can borrow a school Library book.

Record your notes on **A4 paper** so that you can use them in your English lessons.

The Year 5 team.
