

## Maths: Speedy Six

1. Stickers cost 7p each or 6 for 40p. How much money is saved by buying 24 stickers in groups of 6?
2. How many degrees are there in a clockwise turn from west to south east?
3. Write 5 minutes of an hour as a fraction in its lowest form.
4. The length of a rectangle is 3 times its width. If the perimeter is 192cm, what is the length?
5. What number when added to 48 three times gives a total of 120?
6.  $7 \times y = 7532$ . Find  $y$ .

## Geography Homework

As part of our recent theme on 'Living with the Power of Mother Nature' we have been focusing on locating some of the major countries and principal cities of Europe and North America. For this week's homework you are going to focus on Europe. See the attached sheet for the instructions. You will be tested on this at the end of next week.

## Spellings

### Extension

You have finished the list of tricky words set by the Government so now we are going to do something a little different.

We would like you to develop your word knowledge even more. Look up the following words and write a sentence using them.

infinitesimal  
juxtaposition  
kismet

## Optional Maths Extension:

One bonus house point available

Here are four fraction cards.

$$\frac{3}{4}$$

$$\frac{5}{8}$$

$$\frac{6}{12}$$

$$\frac{7}{16}$$

Use any **three** of the cards to make this correct.
