

Terrible Tornadoes

7 Tornadoes are sometimes called twisters. They are
17 very large and fast spirals of air that come from
25 a thunderstorm on the ground. They are often
34 grey in colour and look like an elephant's trunk
43 spinning from the sky to the floor. Tornadoes can
52 have wind speeds of up to three hundred miles-
62 per-hour so they can cause a lot of damage.
66 They can easily destroy
69 large buildings, pull
74 trees out of the ground
78 and can even carry
83 cars through the air for
87 a long distance. Most
92 tornadoes only last for a
97 few minutes but no one
102 quite knows how or why
104 they stop.

Quick Questions

1. What are tornadoes sometimes called?

2. How might someone feel if they see a tornado coming? Give a reason.

3. '*...they cause a lot of damage.*' In this sentence, what does 'damage' mean?
