

# Design specification

Build a design specification for a holder for your client's phone or table, and then produce some example designs that meet this design specification.

**Fill in the following, getting the answers for any questions from your client:**

I am designing a holder for a                      PHONE                      TABLET

How big is it?              Length: \_\_\_\_\_

   Width: \_\_\_\_\_

How much does it weigh?              \_\_\_\_\_

What angle does the client want it held at?

   PORTRAIT

   LANDSCAPE

   BOTH

Where will the client use the holder?              \_\_\_\_\_

Does the client have any personal preferences that can be used?

   Colours              \_\_\_\_\_

   Patterns or shapes              \_\_\_\_\_

Any other notes...
