

Year 4 Homework, Summer Term 2 Week 1 Support

Maths: Fun Five! (Use the column method where possible)

1. $345 + 321 =$
2. $655 - 423 =$
3. $6 \times 3 =$
4. $12 \div 2 =$
5. $4 + \underline{\quad} = 20$

Quick Comprehension: Have a go at the reading comprehension. Children should try to read the text, remember to decode any tricky or new words. Give yourself five to ten minutes to answer the questions. Some of the questions are quite tricky, so don't worry if you have to talk them through with an adult. Your parent can write your answers for you.

Polar Bear – Fascinating Facts

- 10 Polar bears have a great sense of smell. They can
- 19 sniff out seals from almost 1km away even when
- 24 they are under the ice.
- 32 A fully-grown adult polar bear weighs between
- 39 175-650kg and measures approximately 2-3
- 42 metres in length.
- 52 Polar bears need to hunt earlier each year due to
- 61 climate change, which is melting the sea ice. This
- 67 means their feeding season is shorter,
- 73 giving them less time to build
- 77 up their fat reserves.
- 82 This is why polar bears
- 86 are quickly becoming an
- 90 endangered species. Try to
- 96 find out what you could do
- 102 to help save the polar bears.

Quick Questions

1. How long is an average adult polar bear?

2. Which verb has the author used instead of repeating the word 'smell'?

3. Why is it important for a polar bear to build up its fat reserves?

4. Where could you look to find out about how to help save the polar bears?
